

The Larkin Township Fire Dept is offering FREE Smoke & Carbon Monoxide Detectors to our community. These have been made possible through a Grant from the Allstate Foundation - Michael Love Agency - and ACE Hardware of Midland.

It is recommended that Smoke and Carbon Monoxide Detectors be installed on each level of the home. These should be replaced every 10 years.

These are available by contacting Cameron at (989) 615-5805 or by emailing the fire department at firedepartment@larkintwp.com.
